About Akshayan Almanac

It is essential that the students and parents should read the Almanac together and understand the contents in true letter and spirit. This Almanac aims at establishing a valuable and healthy relationship among teachers, students and parents. It is intended to serve

- as an all-in-one ready chronicle and planner for students;
- the parents abreast with what their children are learning at School and their academic progress
- as a handy reference regarding the student's schedule, and
- as a convenient, day-to-day correspondence (related to academics and conduct) between parents and the School

Students should ensure that they bring this Almanac to School every day, use it productively and treat it with care.

Parents should review the mandatory pages daily and must countersign and respond to any comments, which may be made periodically by the members of the faculty. Parents should also countersign the home assignments to signify their completion, as a sign of parental care and responsibility.

As a matter of policy, students will get self practice on subjects on which they are familiar with. These tasks are intended as revision exercises, to reinforce what is learnt by the students in School and must be taken by the students entirely on their own. Students should seek the help of their teachers at School on the following day, in case of any difficulty or clarification.

Note

Comments made by parents in the Almanac should be productive and confined strictly to the subject of the student's work and his/her conduct. All other matters concerning the School should be dealt with separately and either conveyed personally or through separate letter, addressed to the Head of the School.
